

Rating Action: Moody's assigns (P)Aa2 long-term debt rating to Société du Grand Paris' €5 billion MTN programme

10 Jul 2018

London, 10 July 2018 -- Moody's Public Sector Europe (MPSE) has today assigned a (P)Aa2 long-term rating to the €5 billion MTN programme of Société du Grand Paris (SGP). At the same time, MPSE affirmed SGP's long-term and short-term issuer ratings at Aa2/Prime-1 and the short-term debt rating at Prime-1. The rating outlook remains positive.

"SGP's Aa2/Prime-1 ratings reflect the very strong links with its owner, the Government of France (Aa2 positive), its clear public policy mandate and its adequate funding available to face future fixed capital investment needs," says Matthieu Collette, Vice President in Moody's Sub-Sovereign Group and the lead analyst for SGP.

RATINGS RATIONALE

The (P)Aa2 long-term debt rating reflects SGP's sound credit profile and well-defined debt management policies. The €5 billion MTN programme is a building block of the SGP's funding strategy. In the long run, the entity will raise more than three-quarters of its total external funding requirement on financial markets. As of June 2018, SGP drew down €1.3 billion out of €3 billion of unconditionally available funds from the EIB (European Investment Bank, Aaa stable) and the French public bank, CDC (Caisse des Depots et Consignations, Aa2 positive). MPSE expects that SGP will benefit from €1.5 additional committed funds from EIB and CDC by the YE2018. In addition, SGP has access to its €3 billion NEU CP programme used mainly to pre-finance capital expenditures. Its internal funding, coming mainly from tax receipts (€532 million in 2017), is secured and highly predictable. Over 2018, SGP's long term financing needs will total €2.4 billion.

The affirmation of the Aa2/ Prime-1 issuer ratings reflects the strong institutional and operational framework under which SGP operates. SGP is entrusted with a clear public policy mandate and as such plays a key role in the development of the Grand Paris area and the Grand Paris Express automatized metro (GPE). The entity also benefits from its status as an EPIC (Etablissement Public à caractère Industriel et Commercial) and as such is subject to close oversight and supervision from the central government. Facing GPE's increasing costs, and in the context of national fiscal consolidation, the French government reassessed the parameters of the project with a renewed budget and a new, phased timetable for the opening of the new rail lines. Given GPE's strategic importance, MPSE considers that the strong institutional links will persist. Moreover, the central government reaffirmed its commitment to increase tax revenues if needed in the future. The likelihood of central government support is thus the key consideration behind the ratings of SGP.

WHAT COULD MOVE THE RATING UP/DOWN

Upward pressure on SGP's rating could arise from an upgrade of the Government of France. A weakening of the French government's credit profile, reflected in a downgrade of the sovereign rating or any material change in SGP's institutional framework, could negatively affect its rating. Negative rating pressure would also apply should the support provided by the central government show any signs of dilution.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory

disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.
